About The Project

Material Crafts is a marketplace that connects craftsmen, handmade business owners, and applied arts students with trusted suppliers of raw materials.
The platform simplifies the sourcing process by allowing users to discover suppliers, compare prices, and order materials from one place.

Material Crafts

The Problem

Many craftsmen and small businesses struggle to find trusted suppliers for raw materials. The process is often fragmented, time-consuming, and depends heavily on social media groups and personal recommendations.

- Difficult Supplier Discovery
- Lack of Price Transparency
- Limited Online Presence
- No Centralized Marketplace

The Solution

Material Crafts bridges the gap between craftsmen and suppliers through a dedicated marketplace.

- Supplier Directory
- Material Marketplace
- Product Comparison
- Direct Ordering
- Favorites System
- Student Offers
- Nationwide Suppliers
- Secure Payments

Research Goals

- Understand how users currently search for materials.
- Identify Pain points during supplier discovery.
- Analyze Price comparison behaviors.
- Validate Demand for a dedicated marketplace.

Key Findings

78% of users struggle to find trusted suppliers.

65% compare prices manually.

70% prefer delivery over physical purchasing.

82% would use a dedicated materials marketplace.

Design Thinking Process

Empathize
Interview craftsmen and students.

Define
Identify sourcing challenges.

Ideate
Generate marketplace solutions.

Prototype
Create low-fidelity wireframes.

Test
Validate and iterate.

User Persona

Ahmed
Applied Arts Student

- **Age:**21
- **Location:** Cairo, Egypt
- **Occupation:** Student

"I spend a lot of time searching for materials and comparing prices from different places."

Goals
- Find materials easily
- Compare prices quickly
- Save time and transportation costs

Frustrations
- Difficult supplier discovery
- Inconsistent pricing
- Limited supplier information
